Internship Evaluation & Reporting

Thank you for taking the time to complete this form, this evaluation will be used to assess the student's participation in the internship program.

Supervisors, using the form below please evaluate the student who interned with your organization, institution, or business. You can fill out this form electronically or you can fill it manually but eventually it must be signed and stamped from the company's side.

Please note that part I & III should be completed by the intern, part II should be completed by the direct supervisor in the company.

Part I. GENERAL INFORMATION – STUDENT'S INPUT

Student Info:

Student Name: _____ GUC Student ID No.:_____

Faculty: _____   Major:

_____

Student Mobile No.:_____

Internship Info:

Company Name: _____

Core Industry/Business: _____ Country: _____

Supervisor   Name: _____   Supervisor   Job   Title:

_____

Supervisor Tel. No.: _____ Supervisor Mobile No.:_____

Supervisor E-mail: _____ Training Department(s): _____

Source of internships: (1) SCAD office (2) on my own (3) Referrals from GUC TA/Dr. (4) Recruitment website (5) others:

Work Place: (1) Organization (2) Head Office (3) Branch (4) Factory (5) Site (6) Others:

-

Part II. EVALUATION AND COMMENTS – DIRECT SUPERVISOR'S INPUT

Period of Internship   **(dd/mm/yyyy)**   **(dd/mm/yyyy)**

            From: ____/____/_____   To: ____/____/_____

Internship nature (Enrollment Status)

€   Part time   Please specify, no. of Days per week:_____ hours per day :_____

€   Full time   Please specify, no. of Days per week:_____ hours per day :_____

Company Stamp

Please evaluate student's performance by marking the appropriate box:

For each of the following aspects, please mark the box in the rating scale that most closely corresponds to your evaluation of the profile of the student during the internship period. Please also feel free to offer comments and suggestions for changes and improvements in the space provided at the end of the form.

1=Unsatisfactory	2=Below Average	3=Satisfactory	4=Above Average	5=Excellent

	1	2	3	4	5	NA
Skills & Professional Attributes						
Ability to adapt to change						
Analytical skills						
Collecting data/ research data skills						
Creativity						
Follow up skills						
Interpersonal skills with peers, supervisors, and clients						
Problem solving						
Punctuality						
Reporting skills						
Responsibility and accountability						
Stress handling						
Taking initiatives						
Teamwork						
Time management						
Other:						
Technical Background						
Technical Knowledge						
Compatibility of technical skills with the job						
Other:

Part III. INTERNSHIP REPORT – STUDENT'S INPUT

– This report has to be prepared by the student, it must be prepared and written in a **computerized** format, submitting the report in hand written format will not be accepted.

– Kindly refer to the Internship Report writing Guidelines on the GUC intranet – SCAD office folder.

– This report will be reviewed and evaluated from internal faculty members.

Internship Title: IBM Summer Internship Program 2023

Company / Organization Name: IBM

Introduction:
In this report, I will share the insights and knowledge gained during my 8-week internship at IBM, where I held the position of Junior Backend Developer. My motivation for joining IBM was to deepen my expertise in backend development and enhance my understanding of large-scale software projects. IBM's reputation for innovation and its pioneering solutions across multiple industries, including tourism, made it an appealing choice for this opportunity. Throughout the report, I will provide an overview of the company, detail the tasks I was involved in, offer an evaluation of the internship, and conclude with reflections on the experience and its impact on my career.

Company / Organization Description:
IBM, a global leader in technology and consulting services, has been at the forefront of innovation for over a century. Known for pioneering advancements in AI, cloud computing, and blockchain, IBM serves a wide range of industries, from healthcare to finance. During my internship, I was part of a team working on the "Cleopatra" project, a tourism platform aimed at providing end-to-end services for travelers. IBM's dedication to using technology to streamline business processes and enhance customer experiences was evident throughout my time there. The company's collaborative work culture and global presence provided a rich environment for learning and growth.

Internship Performed Tasks:
As part of the backend development team for Cleopatra, a comprehensive tourism app and website, I worked on developing essential features to support tourists throughout their journey. This included building and refining APIs for transportation booking, hotel reservations, flight management, and museum ticketing. My tasks involved writing efficient, scalable code in Node.js, creating RESTful services, and ensuring seamless integration between various modules. I worked extensively with PostgreSQL for storing and managing user information, ensuring optimal database performance. Additionally, I tested APIs using Postman to validate their functionality and collaborated with the frontend team to optimize data retrieval and display. I also documented the APIs using Swagger, enabling the frontend teams to easily access and integrate the services. Throughout the internship, I gained valuable experience in developing complex systems that cater to the needs of an international user base.

Internship Evaluation:
This internship helped me develop a wide range of backend development skills, particularly in building scalable systems and API development. It exceeded my expectations by providing hands-on experience with real-world projects and exposing me to the complexities of the tourism industry. I also gained valuable insights into team collaboration and the processes involved in building and maintaining large-scale applications. Additionally, it strengthened my ability to handle work under pressure and improved my time management skills, as I often had to meet tight deadlines while maintaining high-quality results. The experience also expanded my professional network, allowing me to connect with and learn from experienced developers, sharing knowledge and best practices. Overall, this opportunity has boosted my confidence and solidified my interest in backend development.

Conclusion: My internship at IBM was an enriching experience that offered me a deep dive into the tourism sector and its reliance on technology to enhance customer experiences. Working on the Cleopatra project exposed me to the dynamic nature of the tourism industry and its potential for technological innovation. I learned how critical backend systems are in creating smooth, efficient user experiences, especially in a sector as multifaceted as tourism. Overall, this experience has expanded my understanding of how technology can be applied across industries, and I am excited to apply the skills and insights I gained to future projects.

Please rate your satisfaction with the internship experience.

■ Very satisfied ☐ Somehow satisfied ☐ Neutral ☐ Somehow dissatisfied ☐ Very dissatisfied

Would you recommend this internship to other colleagues?

■ Yes ☐ No ☐ Maybe
